OVERVIEW

Who participates in the study?

Institutional Investor is the industry's most trusted source for research and rankings among top analysts and portfolio managers. For the 2019 ranking, we collected the opinions of 469 portfolio managers and buy-side analysts and 255 sell-side analysts.

When is the polling conducted?

Polling is conducted annually from January through February.

How are the results tabulated?

Voters rank the top-four companies that they believe demonstrate excellence in each of six IR characteristics or performance attributes. Their votes are then weighted by the rank they have assigned each company and aggregated to produce buy-side, sell-side and combined buy- and sell-side rankings for each sector.

How are the results disseminated?

The top-three places in each of our IR rankings are announced in July on our website, which enjoys a global audience of more than 115,000 senior-level executives. The rankings presented include Best IR Program, as well as Best CEO, CFO, IR Professional, Analyst Days and ESG/SRI Metrics across 16 sectors.

Best Investor Relations attributes

Buy- and sell-side voters separately evaluate the following attributes of IR programs:

- Accessibility of senior executives
- Constructive conference calls
- IR is well informed and authoritative
- Company's website is thorough and easy-to-access investor information
- Quick and thorough responses to requests
- Timely and appropriate financial disclosure
